Experience

Escala — *Senior Software Engineer*

May 2022 - Present (1 year 5 months)

São Paulo, Brazil

In my current position at Escala, I act as a senior FullStack developer, a company that makes schedules in an easy way. The project that I work on is used for managing the Hospital Israelita Albert Einstein (ICU) intensive care unit. The project was so good that it became a Saas platform for other clients of many industries..

Hotmart — *Web developer Front-end*

September 2021 - May 2022 (9 months)

São Paulo, Brazil

I worked participating in projects, on the front-end in order to meet my clients' needs, always seeking maximum quality in the code and with a lot of love. Focusing on developing solutions for the company's privacy and international policies.

FDTE - Foundation for the Technological Development of Engineering — *Web developer Full-Stack*

September 2019 - September 2021 (2 years 1 month)

São Paulo, Brazil

I work as a consultant, on projects, being a full-stack developer, thus being part of the workforce of these clients, as well as on projects, building resources, bug fixes, refactoring and rebuilding when necessary.
